

General Meeting Minutes, 14 April, 1997

Minutes submitted by: Momoko Sudo, President (msudo@mtu.edu)

Many people came to the meeting on April 14, 1997, and I sure thank you for attendance.

We basically talked about Agenda. These were the responses. If you have not read Agenda, please go back to home page of HKN and click on Agenda and read it before you read this file.

1. Translation Services?

I think making a list of people whose native languages are not English will be my job. When the list is done, I need HKN members' help to spread the information that there is help available for translation.

2. Help for Helpless people?

We talked about it, but we think that its service must be reliable and stable before we inform Dean of student services that we are thinking about doing this. I said that the difference between good students and students of poor GPA is the difference of life styles. I hope there is an opportunity for "helpless people" to see people of different life styles than helpless people.

3. Html tutoring?

Generally speaking, people liked this idea. I am thinking of involving non-HKN students in order to get this thing done because I do know that there are many non-HKN students who are quite involved in Web works and they are good at it. We all agreed that we have to make a good plan before we actually do this.

4. Cleaning?

Nobody (including myself) wanted to talk about it...

5. Talk show?

This was done many times and it's not new, so it's not too hard to do this, it?
